

Katie Hampson Bio:

Education

2007 PhD: *Transmission Dynamics and Control of Canine Rabies*, Princeton University

2001 B.Sc. Biological Sciences, Oxford University

Bio: Katie holds a Wellcome Trust Career Development Fellowship at the Boyd Orr Centre for Population and Ecosystem Health at the University of Glasgow, UK. She leads a research team in northern Tanzania collecting data on spatiotemporal patterns of rabies incidence and transmission histories using contact tracing methods. In Southern Tanzania, working with Ifakara Health Institute and Sokoine University of Agriculture, Katie is leading a team conducting similar studies with a focus on surveillance and strengthening health systems. She has worked with several rabies control programs in Africa and Asia.
