For more information, contact Susan Brogan at 508-887-4723 or email [RabiesSymposium@WorldRabiesDay.Org](mailto:RabiesSymposium@WorldRabiesDay.Org)

## TOPICS WILL INCLUDE:

### *Global View of Rabies*

- Socio-economic, political and cultural barriers to rabies prevention and control
- Application of the One Health framework towards improved human and animal rabies prevention in the 21st century - (Proposed)
- Local training and global aspirations towards rabies elimination - (Proposed)
- A perspective of rabies from Sierra Leone
- Achievements and activities of the Global Alliance for Rabies Control

### *Putting Education to Action*

- Tufts University 2009 World Rabies Day efforts
- Tufts University USAID Respond project
- Rabies impact on endangered species
- Wildlife reservoirs in the US
- Poster session

## SPEAKERS WILL INCLUDE:

- Dr. Deborah Briggs - Global Alliance for Rabies Control
- Dr. Charles Rupprecht - Centers for Disease Control and Prevention
- Dr. Katie Brown - Massachusetts Public Health Veterinarian
- Dr. Jim Desmond - World Wildlife Fund (Invited)
- Dr. Gudush Jalloh - Sierra Leone Animal Welfare Society
- Dr. Gretchen Kaufman - Tufts University
- Dr. Joann Lindenmayer - Tufts University
- Peter Costa - Global Alliance for Rabies Control
- Paige Mackey - Oklahoma State University
- International Fund for Animal Welfare (IFAW) - (Invited)
- Tufts University Veterinary Medical Students

*The symposium will bring together noted public health and animal health speakers, veterinarians and veterinary medical students from around the world to discuss this important public health issue – from a global and local perspective. The event will heighten participants' understanding of the impact of human and animal rabies, while encouraging prevention through education and vaccination.*
