

SLOGAN No.1.

**SAVE LOVELY BABIES
PREVENT
DEADLY RABIES**

I wrote this slogan after coming across this information on <http://www.who.int/rabies/en/>

(Most of the 55 000 deaths from rabies reported annually around the world occur in Asia and Africa, and most of the victims are children: 30–50% of the reported cases of rabies—and therefore deaths—occur in children under 15 years of age. The main route of transmission is the bites of rabid dogs. Most of the children who die from rabies were not treated or did not receive adequate post-exposure treatment.)

SLOGAN No.2

**GO TO THE VET
CONTROL RABIES
BY
VACCINATION OF YOUR PET**

It was written after coming across this information on <http://www.who.int/rabies/en/>

(WHO strategies for dog rabies control and eventual elimination

WHO promotes organization of sustainable mass dog vaccination campaigns)

SLOGAN No. 3

**NO curative INJECTION
NO cure PILLS
DEADLY RABIES
ALWAYS KILLS**

(It has been written based on the fact that there is no effective cure for clinical Rabies)
